## AIA Dallas and TEXO Association proudly present the 12th Annual Bark + Build

The companies that have helped build Dallas-Fort Worth have helped shape the places where our community lives, works, and gathers. We invite developers, corporate leaders, and major DFW employers to join Bark + Build as Corporate Partners and help us continue expanding the reach of animal support across our region.

Through financial sponsorship, team partnerships with architects and general contractors, and creative employee engagement, your organization can make a visible local impact while supporting the SPCA of Texas and creating meaningful support for our furry family members.

Bark + Build brings together the design and construction industry in a one-of-a-kind community initiative that celebrates creativity, collaboration, and compassion. Corporate partners play a vital role in helping us grow this impact throughout DFW.

### WHY PARTNER

Support the mission of the SPCA of Texas

Align your brand with a high-visibility DFW community initiative

Partner with architects, designers, and general contractors

Engage employees, clients, and stakeholders in a  
creative cause-driven event

Help expand awareness and support for animals across North Texas
